

Model : U1-250

GLASS DOOR SABLE FOR SLIM MAGLOCK

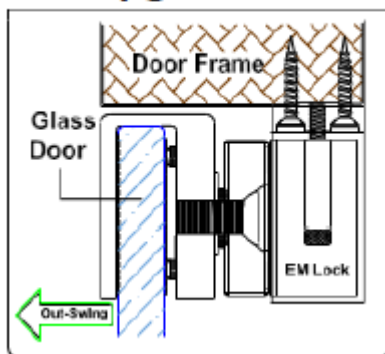

This glass door sable is ideal for outward opening glass doors as it clamps to the top of the door avoiding the need to drill the glass or use adhesive. Suitable for use with slim maglocks to hold the armature plate.

FEATURES

- Anodised aluminium finish
- Avoids drilling the glass
- Enable horizontal adjustment
- Includes shims for varying glass thickness

(glass door)
